

JONATHAN BRICEÑO

Data Analyst | Business Intelligence

Trujillo, Venezuela | +58 4161383996 | [Email](#) | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Computer Science Engineer with a solid foundation in Data Analysis and Business Intelligence, specializing in operational process optimization and compliance through SQL and Power BI. Experienced in the public sector managing pattern analysis and performance metrics, with a focus on data integrity and enhancing organizational efficiency.

TECHNICAL SKILLS

- Data Analysis: **SQL, Python (Pandas), Jupyter, Looker Studio, Power BI, Excel, A/B Testing.**
- Business Intelligence: **Data modeling, Data visualization, Data storytelling, Data Wrangling, Predictive Analytics, Actionable insights, Driven improvements.**
- Software & Security: **Cyberdefense, Industrial Security Protocols, Data Life Cycle.**
- Tools & Methods: **ETL, Database Normalization, IT Project Management, Trello, Git/GitHub**

BUSINESS & COMPLIANCE SKILLS

Data Integrity & Auditing, Process Optimization, Reporting & Dashboards (Power BI – Looker Studio), Due Diligence Support.

PROFESSIONAL EXPERIENCE

University Professor | UNEFA March 2024 – May 2025

- **Standardized advanced analytical frameworks** by designing courses in Database Management and Programming (Python/JavaScript), focusing on data governance and compliance principles.

Frontend Developer | **Freelance** September 2019 – January 2026

- **Accelerated executive decision-making by 20%** through the design of dynamic visualizations that highlighted key performance indicators (KPIs) and operational trends.

Telecommunications Equipment Operator | Government of the Bolivarian State of Mérida | Aug 2019 – Sep 2020

- **Optimized response logistics and request tracking** through metrics analysis, aligned with auditing standards and operational efficiency.

Systems Analyst | **Cyberdefense Directorate** September 2015 – May 2019

- **Strengthened data governance** by implementing SQL queries and anomaly analysis to monitor internal controls and regulatory alignment..

BUSINESS INTELLIGENCE CASE STUDIES

- [**Optimizing Law Enforcement Response Efficiency for Recorded Offenses**](#) – Tool Used: Python(Pandas) ETL, Excel, Looker Studio, Git, Github.

EDUCATION & CERTIFICATIONS

- **B.S. in Computer Science Engineering** | UPTMBI (2015).
- **Career Accelerator with Power BI + AI** | Daxus Latam (2026).
- **Artificial Intelligence Immersion in Practice** | Daxus Latam (2026)
- **Data Science and Analytics** | HP Life (2025).
- **Data Fundamentals** | IBM (2025).
